Job Title:

On-Firefighter/Emergency Medical Technician

Job Description:

As an On-Call Firefighter and/or EMS provider, you will provide emergency response services to protect the community, save lives, and reduce risk. You will respond to a wide range of incidents, including fires, motor vehicle accidents, medical aids, water/ice rescues, and other emergencies, while also supporting fire prevention and community safety initiatives. Expectations include responding to emergencies when available, training regularly, and being fit enough to carry out duties.

This role requires a high level of commitment, teamwork, and the ability to respond quickly and calmly in high-pressure situations.

Examples of Duties:

- Respond promptly to emergency calls when alerted via pager/alerting/cell phone.
- Carry out firefighting, rescue, and emergency medical duties as directed.
- Operate fire service equipment safely and efficiently.
- Undertake regular training to maintain operational competence.
- Participate in fire safety education and community engagement activities.
- Conduct basic checks and maintenance on firefighting equipment and vehicles.
- Work as part of a cohesive team under command structure during incidents.

Minimum Qualification:

- Must be at least 18 years old.
- Valid driver's license with a good driving record.
- Ability to pass a background check.
- Must live or work within a reasonable response time of the fire station.
- Availability to respond to calls during nights, weekends, or holidays as needed.
- Certified Firefighter or EMT, or willingness to obtain within 18 months.
- CPR and First Aid certification (or ability to obtain).
